I excel in problem-solving, effective communication, and quickly adapting to evolving technologies and project requirements.
- **Skills:** .Net, MVC, Sql, Software Architecture

Mohali, Punjab

Aug 2023 - current

## Projects

### ExpenseNest

- ExpenseNest is your all-in-one expense manager, designed to effortlessly track and manage every kind of spending — whether it's a direct purchase or an EMI-based payment. Think of it as your personal financial nest, keeping a close eye on what's coming in, what's going out, and exactly where your money is flowing. With intuitive tracking and clear categorization, ExpenseNest helps you stay in control of your finances, giving you a complete picture of your expenses in one convenient place.
- **Technical Skills:** .NET Core MVC, Entity Framework

## AdmissionGuide

- AdmissionGuide is a college consultancy platform designed to simplify the admission process for students. The system allows students to browse various colleges, submit inquiries, and apply for admissions through a streamlined, user-friendly interface. It features an admin panel for managing college listings, tracking student inquiries, and processing applications efficiently. The platform aims to connect students with educational institutions and automate key workflows, improving both accessibility and operational efficiency.
- **Technical Skills:** .NET Core MVC, SQL

## Resume Builder Web Application

Personal Project

- This application helps users through the process of building resumes by taking inputs and designing the resume automatically.
- **Technical Skills:** MERN stack, Material UI
